240W USB-C to USB-C PD Fast Charging Cable

## Features:

### 240W Superfast Charging:

Superb 240W PD 3.1, charging a MacBook Pro 16" to 56% in 30 minutes. Backward compatible with 140W/100W/65W devices.

### Safe & Smooth Charging:

Has an exclusive E-marker smart chip that intelligently matches the required current. 56K $\Omega$  resistors provide seamless conduction and smooth charging, safeguarding devices from electrical harm.

### One for All:

Broad compatibility for a versatile charging experience, adapt to various USB C port devices, including your laptops, phones, tablets, Steam Deck, Switch and AirPods.

### Durable and Long Lasting:

Can achieve over 10,000+ bending test, providing a reliable feeling of use. Tangle-free design makes it easy to pack and store.

## Specification:

\*Function: Charging, Data Sync

\*Connector(s): USB-C

\*Power: 48V=5A, 240W Max

\*Transfer Rate: 480Mbps Max
